Art Unit

2623

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 11/25/2005 have been fully considered but they are not persuasive.

Applicant argues that the prior art of record does not embed the metadata, which includes metadata digest embedded in the media signal steganographically.

The Examiner disagrees. Downs et al disclose that the part digest values stored in METADATA SC (s) 620 BOM can be used for validating the record (column 25, lines 36-49).

As to steganographically embedding the metadata digest in media signal, **Steganography** is the art and science of writing hidden messages in such a way that no one apart from the intended recipient knows of the existence of the message. Down et al in his system disclose a watermarking tool to hide data in the content 113 that identifies the content owner, the processing data, and other relevant data (column 9, lines 15-46).

Currently claims 6-11, 13-18, 20-23, 25-30 are pending.

DETAILED ACTION

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the

Art Unit: 2623

applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claim 6 is rejected under 35 U.S.C. 102(e) as being anticipated by Downs et al.

As to claim 6, Downs et al disclose a method for processing meta data of a media signal comprising: providing metadata digest for the media signal, and embedding metadata, including the metadata digest (the cited reference discloses that the part **digest values stored in METADATA SC (s) 620 BOM** can be used for validating the record, corresponding to "metadata digest". Refer for example to column 25, lines 36-49 and Fig.6) steganographically in the media signal (**Steganography** is the art and science of writing hidden messages in such a way that no one apart from the intended recipient knows of the existence of the message. Down et al in his system disclose a watermarking tool to hide data in the content 113 that identifies the content owner, the processing data, and other relevant data. Refer for example to column 9, lines 15-46).

Allowable Subject Matter

Claims 7- 11, 13-18, 20-23, 25-30 are allowable.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 2623

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
